Hi Guy,
Any news about subsistence data?

Hi Phil,
I was glad to attend a bit of the meeting, but regret not being able to stay for all of the 3 days. I had made a few prior commitments. It does look like there's a nice diversity of participants and I look forward to working through the rest of the process. Thanks for including us.

I expect it's ok to use the data, but I'm copying our subsistence team lead, Dave Mills, to confirm. Ex. 6 - Personal Privacy
Ex. 6 - Personal Privacy and may be available to help do analysis or assessment on a contract (credit card style) basis if you'd like (Ann Rappaport asked about the availability of retired folks, I'm not trying to sell him on you).

Guy

Dave,
I know Don is probably busy during his last few days, but do you think you could approach him about providing a copy of the database which could be

shared (but leaving formatted however is most convenient)? Let's also discuss if you want to become directly involved in the watershed assessment, or continue to have Paul and I look for targeted opportunities for engagement. There seems to be a larger cultural component that I would have expected. The assessment framework should be completed during the next month or so, it will be a good time to evaluate.

Subject: Subsistence information

Hi Guy,
Thanks for attending the meeting this week. I apologize for the incomplete contact list. Our team keeps expanding so we have not done a good job of keeping the contact list up to date and accurate.
